

What's Happening in the Stepping Stones Classroom in March?!

<p><u>In the Meeting Space</u></p> <p>Plan to see all of the Dr. Seuss characters and stories in the Meeting Space this month.</p>	<p><u>In the Art Studio</u></p> <p>We are interested to see how the Recycling Center influences the children's work in the Art Studio and are waiting to see/hear what kinds of materials they need to support their creativity.</p>
<p><u>In Home Sweet Home</u></p> <p>Our Home Sweet Home area will be a Dinosaur Land during the month of March. There will be lots of opportunities for Dramatic Play, learning facts and interacting with our Building Blocks friends.</p>	<p><u>At ABCs and 123s</u></p> <p>The writing cart is here to stay and the Stepping Stones children make liberal use of it! We will be introducing more correspondence related words for copying, writing and reading.</p>
<p><u>In the Block Area</u></p> <p>We are once again changing up the Block Area to encourage the children's explorations and creativity. We will introduce ramps, rollers and sliders this month.</p>	<p><u>In the Science Lab</u></p> <p>The Science Lab is one of the busiest places in the classroom. The children choose their own experiences exploring materials and interacting with the light table, the magnet wall and the wind tunnel.</p>
<p><u>Annual Art Show</u></p> <p>During March we will be working with the children to select art for the Annual Art Show in April.</p> <p>The Art Show reception is Thursday, April 6 at 4:30 at the Library.</p>	<p><u>Letter of the Week</u></p> <p>February 27--Ch March 6--Xx March 13--Zz March 20--Q Qu</p>
